Product Bulletin

FL1 To Be Phased Out

June 29, 2007 - Due to aging tooling and the continued conversion of business to the FL2 Series, the FL1 emergency lighting unit will be phased out. There are approximately three months of available inventory for the FL1 and once this is depleted, the FL1 will no longer be offered. The FL2 is a newer, better-looking, commercial emergency lighting unit that will satisfy this market need. We will continue to accept orders for the FL1, but please make note that when inventory is depleted, all orders received will be transitioned to the FL2 Series. We anticipate this to be a seamless transition as we continue to rationalize our product line to meet industry needs.

As always, should you have any questions or concerns regarding this bulletin, please do not hesitate to contact us directly. Thank you for your continued support.

*Remember to keep **LightGuard** in mind for all of your emergency lighting needs!*
