Guard-Lite Series Receives Smart Charger

June 2011 – LightGuard is pleased to announce the release of our Class I, Division 2 product lines with Smart Charger. Not only is LightGuard one of the few suppliers of Class I, Division 2 products, we are now setting a new standard for product reliability and features within this product category. This new product family gives you a fixture that is versatile enough to meet your egress code requirements and is coupled with the most reliable and technologically sound electronics package available on the market. There is an abundance of upgrades associated with this new family, with some of the notable enhancements listed below:

- ◆ Fiberglass-reinforced polyester housing
- ◆ Single housing size consolidation for each product family
- ◆ Smart Charger diagnostics standard with optional self-testing diagnostics available
- ◆ Class I, Division 2, Groups A, B, C & D; Class I, Zone 2; Class II, Division 2, Groups F & G
- ◆ All factory installed options for exit signs and unit equipment remain available
- ◆ Smart Charger IR remote test capable
- ◆ Fully compliant with the Buy American provisions

We are very excited about the added benefits and product options associated with our revised Guard-Lite Series and look forward to assisting you with any product or application questions you may have. As always, should you have any questions, please feel free to contact us directly. Thank you for your continued support!

*Remember to keep **LightGuard** in mind for all of your emergency lighting needs!*
