

## NightWatch Series Compatible Dimmers

For Models With 120 VAC Dimmable Driver Option

NightWatch Product Series:  
S2S(color)DIM  
SH2S(color)DIM

The following list of dimmers have been evaluated for compatibility:

- Lutron Maestro: MAELV-600 (or similar)
- Lutron Diva: DVELV-600 (or similar)
- Lutron Radio-Ra: RAELV-500L
- Smarthome Instaon: 2476D
- Lutron Home Works of Grafik-Eye
- Vantage Lighting Systems

**NOTE 1:** Other electronic low voltage dimmers may be compatible, but have not been tested by LightGuard to assure quality results.

**NOTE 2:** Do not use Leading Edge (typically labeled “incandescent”), magnetic or fluorescent dimmers.

**NOTE 3:** All power ratings and installation instructions from dimmer manufacturers’ instruction sheets must be followed.

**NOTE 4:** Dimmer control must have same AC input rating as the dimmable power supply driver it connects to.
