DX Now Standard with Smart Charger Diagnostics

LightGuard is proud to announce that the Made in the USA DX series die cast exit is now being released with our Smart Charger diagnostics platform as a standard feature. The following list highlights a few of the exceptional features now available:

- ◆ AC-only or self-powered models
- ◆ Standard self diagnostics (self-powered models)
- ◆ Optional self-testing to satisfy monthly test requirements
- ◆ 10-year designed service life
- ◆ Batteries compliant with IEC 61951-1 life testing
- ◆ Red or Green LED illumination in excess of 79 cd/m² average
- ◆ Single or double face (including canopy) configurations
- ◆ UL damp location listing optional 32°F (0°C) to 104°F (40°C)
- ◆ Optional Smart Charger IR remote test device

As more attention is paid to “Made in America” products, LightGuard is proud to keep a functional die cast offering available for you to meet the market needs. Combined with Smart Charger, not only can you meet the specification requirements against your competition, you can actually write specifications that these other products cannot meet.

As always, should you have questions or concerns regarding this matter, do not hesitate to contact us directly. Thank you for your continued support!
