## Slim Line Series Edge-Lit Exit Offering Reduced Effective April 30<sup>th</sup>, 2007

With the introduction of the new Vintage Series universal mount LED edge-lit exit sign, we have found it necessary to reduce the number of available configurations of our Slim Line Series edge-lit exit product. Rather than completely remove the Slim Line Series from our offering, we will be limiting the availability of the sign to recessed ceiling mount configurations only. The recessed ceiling mount Slim Line Series will be available with the following options:

- ◆ AC-only or self-powered models
- ◆ Red or Green LED illumination
- ◆ Single or double face lenses
- ◆ Clear or mirror lens insert
- ◆ Brushed aluminum finish
- ◆ Standard with bar hangers

### **NOTE: ALTERATIONS TO THE SLIM LINE SERIES LIMITED PRODUCT OFFERING WILL NOT BE ALLOWED**

Most of your edge-lit exit sign business should be transferable to our new Vintage Series as it meets all of the industry requirements for exit signs in a convenient one-box configuration. The recessed ceiling mount Slim Line Series will still allow you to entertain a medium grade edge-lit exit product for certain installations. However, when you encounter a job with called for factory-installed options or any configuration that will be discontinued in the Slim Line Series, the product to be used is the Vintage Series.

We urge you to begin converting your edge-lit exit business over to the Vintage Series wherever possible to assist us in making this transition a smooth one. As always, should you have questions or concerns regarding this matter, do not hesitate to contact us directly. Thank you for your continued support.

*Remember to keep **LightGuard** in mind for all of your emergency lighting needs!*
